

Burgerstein-Produkte: Hilfsstofftabelle für Fachpersonen

Diese Tabelle listet diejenigen zugefügten Hilfsstoffe auf, welche am häufigsten abgefragt werden.

Die Burgerstein Produkte werden nach orthomolekularen Kriterien hergestellt:

- Einsatz von Wirkstoffen, die von Natur aus im Körper oder der Nahrung vorkommen und für die Gesundheit erforderlich sind
- keine körperfremden, resorbierbaren Hilfsstoffe (z.B. Farb- und Süsstoffe, Emulgatoren, usw.)
- qualitätsgeprüfte Rohstoffe mit höchster Reinheit
- hoher Wirkstoffanteil, geringer Hilfsstoffanteil

Alle Burgerstein Produkte sind glutenfrei und enthalten keine dopingrelevanten Substanzen. Der spürbare Nutzen für den Kunden steht immer im Vordergrund.

| Produkt | Form | Lactose | Saccharose | Glucose / Dextrose | Fructose | Mannit | Sorbit | Xylit | Isomalt | natürliche Süsstoffe | Hefe | mineral. Farbstoffe | Aromastoffe | Talcum | Sojalecithin / Sojaprotein | Erdnussöl | Schellack (S) |
|-------------------------------------|------------|----------------|------------|--------------------|----------|--------|--------|-------|---------|----------------------|------|---------------------|----------------|--------|----------------------------|-----------|---------------|
| Burgerstein Aminovital | Beutel | | | | | | x | x | | | | | x ¹ | | | | |
| Burgerstein Anti-Ox (BAG) | Kps. | | | | | | | | | | | x | | | | | |
| Burgerstein B-Komplex (BAG) | Tbl. | | | | | | | | | | | x | | | | | |
| Burgerstein Beta-Carotin 6 mg | Kps. | | | | | | | | | | | | | | | | |
| Burgerstein Beta-Carotin 15 mg | Kps. | | | | | | | | | | | | | | | | |
| Burgerstein Biotics-D | Kps. | x [#] | | | | | | | | | x | | | | x ^{##} | | |
| Burgerstein Biotics-FEM | Kps. | | | | | | | | | | | | | | | | |
| Burgerstein Biotics-G | Beutel | | | | | | | | | | x | | | | x ^{##} | | |
